The actors of the film are Edward (Robert Pattinson) and Bella (Kirsten Stewart). The film tells about Bella and Edward who fell in love with each other. But there is a problem, because Edward is a vampire and must drink blood. If Edward bites Bella, she will be changed into a vampire. Edward didn't want to chance Bella into a vampire, because he knows how difficult it is. Edward must kill people or animals to drink their blood and he doesn't want that Bella kills people, too. The film is sometimes very sad and it made the heart beat faster, but sometimes it is also very exciting. My opinion of the film is that it's a very nice story.
